DATE OF VISIT  
**18-04-2026**

### ABOUT THE VISIT

The Department of Geography organized an educational visit to the historic Melukote Chaluvanarayan Swamy Temple, Melukote, Mandya. The visit aimed to enhance students' understanding of the cultural landscape, heritage conservation, water management systems, and the geographical significance of temple settlements.

### HIGHLIGHTS OF THE VISIT

Explored the cultural and historical importance of the temple.

Observed traditional water management systems and sacred water bodies.

Understood the relationship between physical features and human settlements.

Field-based learning experience for geography students.
